

## ONE TIME LONELY

Though you are away  
and there are miles between us,  
though we are apart, still we will go on.  
Cause it is worse the time  
and there is nothing between us.  
Before we start, we have all long won.

Refrain:

And it's just one time lonely  
it's just one time lonely  
We are one time lonely,  
but still we know and we'll never forget,  
whom to we belong.

And though some time has passed by  
and we're lonely and we're frightened,  
still there'll be a place to rest for you and me.

And maybe we'll be weak someday  
and maybe we won't be sure,  
but still we'll be in love as much  
as only we can be.

And though some things went to slowly  
and though some things have changed a bit,  
I still know, that I love to hold on to our love.  
And you are here and you are not,  
I do love to think of you and I do not.

And we are still fighting for our love.

Refrain
