

## GIRL

When your whole body speaks to you  
"just leave it, let it go!"  
You feel a pain inside your chest  
"just leave it, let it go!"

Hold on close to me, girl, for now it's true.  
Hold on close to me, girl, I am with you,  
Are you with me?

When your hole body speaks to you  
"just leave it, let it go!"  
A world's been turning upside-down  
and you don't know, what to do.

Hold on close to me, girl, for now it's true.  
Hold on close to me, girl, I am with you,  
Are you with me?

I want to hold your body oh so close to me  
I want to feel your body's warmth all over me  
And I want to touch your face while you are next to me  
And I want feel your long long hair like rain all over me.
