

## THE ACE 2010

Heaven is all that way up from where this is  
What you have not experienced is what you miss  
Seems it's just about one question  
Right place and right time?  
That is where you are not now  
that you did not find

Refrain:

Take me to the highest mountain  
cause I wanna fly  
Head over heels through the clouds  
in a big sky  
Let the tables turn then finally  
give me the Ace soeone  
And it's gonna be different  
It's gonna be, It's gotta be great.

What if on the highest mountain there's nothing to see  
Does it have to be over before it's begun?  
I wanna know for sure that  
the opportunity's on  
to live my life like I want to  
It's only just begun
