

## INSIDE THE VOID

Lightning flashes, sky is black,  
No more time to run away  
Your name is Nobody and you live inside the void.

Much too fast to get a grip  
much too big to see it all  
Your life seems unreal  
and you live inside the void.

Nothing to hold on to  
and there's no one to know better  
You search your way stumbling  
as you move into the void.  
Nothing here but giant walls  
just getting bigger by the hour.

Refrain:  
VITATECH – Open up your eyes  
VITATECH – Your path is your aim.

Bridge:  
In a dream you saw a different world.  
In which only you really mattered.  
didn't know where you were coming from.  
You just felt happy.

But you live inside the void  
you live inside the void
