

## WHAT BIG EYES YOU HAVE (KISS ME)

Look at this world, just have a look with me  
Just feel the power hitting you and me  
As if I knew you from before  
As if I was close to a shore

Bridge:  
I want you to sit on my lap,  
your pretty arms around my neck

Bridge 2:  
Firecrackers blazing colors, flashing over space and time  
If you see it differently, I just won't bother  
I'm happy feeling so alive

It hit me out of the blue - I saw you; well I had been warned  
what big eyes you have, what red lips you have,  
Come closer, much much closer

Refrain:  
Kiss me, kiss me. I wanna find out, what we got.  
Because I feel you are close, like someone else had wrote this plot.  
As if I knew you knew me from before.  
I want you closer to me. I feel so strange, when I'm with you.

What big eyes you have, what red lips you have,  
Come closer, much closer

Bridge 2:  
.. If you see it differently, I just won't bother  
I'm happy feeling so alive

Bridge 3:  
But you know - I see you by my side, I see you,

I want you closer to me. I feel so strange, when I'm with you.
